

Program:	Weatherization Assistance Program (WAP)	MHN # 2026-WAP-001
Action:	ECOS Energy Billing Data Summary Screen	Effective Date: 1/23/26
Issued by:	MaineHousing, Energy and Housing Services	Expire Date:

This MaineHousing Notice #2026-WAP-001 is being issued to clarify information that is needed for the Energy Billing Data screen in ECOS.

1. New fields to be completed when creating a Weatherization application

When creating a Weatherization application the Energy Billing Data screen must be completed. Each energy type that is in the home must be entered.

- **Electric Energy Type**

When entering Electric, the field “Highest monthly electric bill over the last twelve months” must contain the total cost of the highest electric bill over the past twelve months. The data in this field will determine if a priority point is given for High User on the wait list.

- **Energy Consumption Detail Field**

This field must be completed for each energy type that is in the home. The usage and cost must be collected for the previous twelve months. The previous twelve months can be added together and entered on one line for each energy type. The data in this field will determine if a priority point is given for Energy Burden on the wait list. Currently ECOS is awarding two points for being Energy Burden. MaineHousing has submitted a ticket to JAI to change this to one point.

All documentation that was used must be uploaded to the files section of the Weatherization application.

2. Notice Contact

Kim Ferenc, Manager of Housing and Weatherization ▪ (207) 626-4684 ▪ kferenc@mainehousing.org
