This MaineHousing Notice (MHN) # 2026-WAP-002 is being issued to Expire MHN 2025-WAP-013

1. MHN 2025-WAP-013

MHN 2025-013 concerns the full approval by the Department of Energy for ECOS. This full approval meant that we were no longer confined to the limitations that we had with the conditional approval. We recently found out that the ECOS Production site that we use does not contain the DOE approved code. At this time, we're expiring MHN 2025-WAP-013 and will continue to use ECOS with the conditional approval limitations that are in MHN 2025-WAP-007.

MaineHousing is currently working with JAI to go through the testing and approval process to have this code updated on our ECOS Production site. Once the code is in our ECOS Production site, MaineHousing will issue an MHN that will allow CAA's to use ECOS without the conditional approval limitations.
